Short Bio

Sebastian Lapuschkin received the Ph.D. degree with distinction from the Berlin Institute of Technology in 2018 for his pioneering contributions to the field of Explainable Artificial Intelligence (XAI) and interpretable machine learning. From 2007 to 2013 he studied computer science (B. Sc. and M. Sc.) at the Berlin Institute of Technology, with a focus on software engineering and machine learning.

Currently, he is the Head of the Explainable Artificial Intelligence at Fraunhofer Heinrich Hertz Institute (HHI) in Berlin. He is recipient of multiple awards,

including the Hugo-Geiger-Prize for outstanding doctoral achievement and the 2020 Pattern Recognition Best Paper Award. His current work is focused on actionable Explainable AI for the interpretation, holistic analysis and rectification of machine learning system behavior. Further research interests include efficient machine learning and data analysis, data and algorithm visualization.

Sebastian loves automation and woodland hiking (not simultaneously).

Professional Experience

Fraunhofer Heinrich Hertz Institute/HHI

BERLIN, GERMANY

Head of Explainable Artificial Intelligence

Jan '21 – present

Group Leadership and direction of XAI research.

Research: Work towards the next generation of Explainable AI approaches and XAI-based model improvement by, e.g., [increasing efficiency \(also\)](#) and [debugging model training, reasoning and datasets](#). Provision of powerful modified backprop XAI for Pytorch models, and tools for reproducible XAI evaluations to the community via [Zennit](#) and [Quantus](#).

Further responsibilities: Project management and (funding) acquisition. Recruitment and guidance of research staff.

Tenured Researcher

Jan '19 – present

PostDoc research position in the Machine Learning Group at Fraunhofer HHI.

Research: Development of [Spectral Relevance Analysis](#), automating the detection of “Clever Hans” moments in machine learning. [Measurably increasing the explanation quality](#) of local XAI. Provision of modified backprop XAI in Keras/Tensorflow via [iNNvestigate](#).

Further responsibilities: Project (funding) acquisition. Recruitment and guidance of PhD students and student research assistants.

Research Associate

Oct '14 – Dec '18

Founding member of the Machine Learning Group at Fraunhofer HHI.

Research: Furthering XAI research with the [development](#) and [evaluation](#) of corresponding methods, as well as applications in [various expert domains](#), resulting in [several highly cited publications](#), open source [software tools](#) and [repositories](#), and the [first recorded encounter](#) of the “Clever Hans” effect in machine learning via XAI.

Other contributions: Minor contributions to the h.266 (VVC) video codec via learnable intra-frame prediction filters. Planning and conceptualization of an HPC cluster with modern GPU hardware implemented at Fraunhofer HHI. Development and showcasing [multiple XAI demos](#) in international events.

Additional supervision by Prof. Dr. Wojciech Samek.

Berlin Institute of Technology/TU Berlin

BERLIN, GERMANY

Research Associate

Sep '13 – Sep '14

Research: Formalization and development of the “[Layer-wise Relevance Propagation](#)” (LRP) method of Explainable AI for explaining individual predictions of nonlinear machine learning models.

Supervision by Prof. Dr. Klaus-Robert Müller and Prof. Dr. Alexander Binder.

Student Research- & Teaching Assistant

Oct '11 – Aug '13

Research: Structure and cell type detection in large histopathology images using Bag of Words features and SVM classifiers. Development of XAI for the pipeline.

Research assistant to Prof. Dr. Alexander Binder at the department for machine learning at TU Berlin.

Teaching: Preparation and lecturing of exercise sessions complementing the lectures “Machine Learning 1” and “Machine Learning 2 – Theory and Application”. Visualization and animation of data and learning algorithms discussed in the lecture.

Teaching assistant to Prof. Dr. Klaus-Robert Müller and Prof. Dr. Franz Király.

Student Teaching Assistant

Oct '09 – Sep '11

Course instruction for algorithmic and practical foundations of computer science (B.Sc.): Basic and advanced Java development, software engineering and OOP concepts, algorithms on image and graph data, among others.

Teaching assistant to Prof. Dr. Marc Alexa, Prof. Dr. Odej Kao and Prof. Dr. Oliver Brock.

Education

Berlin Institute of Technology / TU Berlin

BERLIN, GERMANY

PhD in Machine Learning (with distinction / “summa cum laude”)

2013 – 2018

Research and application of methods of *Explainable AI* (XAI):

Layer-wise Relevance Propagation, Deep Taylor Decomposition, Spectral Relevance Analysis, ...

Thesis: “Opening the machine learning black box with Layer-wise Relevance Propagation”

Supervision headed by Prof. Dr. Klaus-Robert Müller.

Master of Science in Computer Science

2010 – 2013

Focus on machine learning, computer vision and large scale data analysis.

Thesis: “On Pixel-wise Predictions from Image-wise Bag of Words Classification”

Supervision headed by Prof. Dr. Alexander Binder.

Bachelor of Science in Computer Science

2007 – 2010

Focus on Algorithms and Software Development

Thesis: “Keyword-Based Image Browsing of Large Image Databases”

Supervision headed by Prof. Dr. Kristian Hildebrand.

Deutschhaus-Gymnasium/DHG

WÜRZBURG, GERMANY

Abitur (pre-university secondary education)

1998 – 2007

Skills

Technical: Various Software Languages, packages and environments, e.g., Python (NumPy, PyTorch, ...), Matlab, Linux, bash, git, subversion, Slurm, Sun Grid Engine, ...

Scientific working and writing: LaTeX, Inkscape, WYSIWYG word processors, ...

Machine Learning Methodology: Development, application and evaluation of, e.g., SVMs, DNNs, processing pipelines, embeddings, clusterings, ...

Domain Knowledge: text, audio, video, images, time series, biomechanical and biomedical data, ...

Natural languages: German (*native*), English (*full professional proficiency*)

Awards

Pattern Recognition Best Paper Award and Pattern Recognition Medal (2020) for the paper “Explaining NonLinear Classification Decisions with Deep Taylor Decomposition”

Hugo-Geiger-Prize (2019, 1st place) Förderpreis für herausragende Promotionsleistungen

Freunde des HHI (2019) Förderpreis für exzellente wissenschaftliche Arbeiten am HHI

ERCIM (2019, finalist) Cor Baayen Young Researcher Award

Best Paper Prize (2016) ICML'16 Workshop on Visualization for Deep Learning
